The screenshot shows the top navigation bar of The Guardian website with links for News, Opinion, Sport, Culture, Lifestyle, and More. Below the navigation bar is a breadcrumb trail: World > Europe > US > Americas > Asia > Australia > Middle East > Africa > Inequality > Cities > Global development. The main article is titled "Child abuse imagery found within bitcoin's blockchain" and is categorized under "Bitcoin". The sub-headline reads: "Researchers discover illegal content within the distributed ledger, making possession of it potentially unlawful in many countries". To the right, there is a "most viewed" section with two items: "Trump repaid his lawyer Stormy Daniels hush money, says Giuliani" and "Body found trapped behind wall of Calaveras".
